

Please do not expand the LPFM in this area to the point of knocking off the FM translator. I listen to Air1 90.7 and if you do this I can lose my favorite station. There is not a lot of positive radio out here. Don't take this voice away by unilaterally taking over the airwaves. I am also against the proposal of an "a la carte cable. because you will limit the "Christian voice" in that arena to. We need positive voices in America. Things are bad enough. Do not do things to affect a hopeful word that someone may need (including my family and I). Thank you
